Component video cable

The 26 AWG gold-plated, shielded Component Cable from Forza is perfect for connecting your high performance video equipment to your HDTV. By splitting the video signal into three separate components, this cable offers sharp, high-definition images for video and home theater applications.

This cable is the ideal solution for:

- High definition TV
- Home theater components
- Digital cable boxes
- Digital/ satellite receivers
- Television distribution devices
- Computer video card output
- Gaming consoles

COMPONENT
Enhanced
high-definition video connector
10ft/3m

PREMIUM

- Delivers high definition (HD) picture quality
- Corrosion resistant 24K gold-plated connectors
- Maximizes signal quality
