

Product Warranty

Thank you for trusting Forza Power Technologies to protect your valuable equipment. The following warranty covers Forza's SL and COLORS UPS systems. Forza products are backed by comprehensive warranties and policies to afford basic peace of mind right out of the box.

Products in the US and Canada are supported with a standard two year comprehensive warranty. If the product should prove defective in material or workmanship within that period, Forza will replace or repair the product, at its sole discretion. Service under the US or Canada warranty can only be obtained by you shipping (with all shipping and delivering charges prepaid) the product to: Forza Power Technologies.

Products in Latin America are backed by a two year comprehensive warranty. To simplify logistic issues, service for this warranty within the allowable two-year period can be obtained at the authorized distributor within your country. If the product should prove to be defective within the standard two year period, the authorized distributor or Forza US (if there are no authorized distributors in your area) will replace or repair the product, at its sole discretion.

This warranty does not apply to normal wear and tear or damage resulting from accident, abuse or neglect. This warranty excludes all incidental and consequential damages.
