

**PREMIUM**

### **S-Video cable**

The gold plated, high quality S-video Cable from Forza is built to deliver optimal image quality by ensuring a cleaner signal transfer for your standard audio/ video components. Constructed with 75-ohm oxygen-free copper conductor, this 28 AWG cable maximizes signal quality by providing minimal signal loss. Enhanced immunity against radio frequency interference (RFI) and electromagnetic interference (EMI) is also achieved by the individually shielded conductors and high-quality material this cable features.

**S-video connector is ideal for compatible entertainment components such as:**

- Televisions
- DVD players
- Digital camcorders
- Digital cable/satellite boxes
- A/V receivers
- Desktop or notebook PC with TV output jack

**S-VIDEO**

**Optimal video quality**

**Sends video signals through S-video jacks**

**6ft/1.8m**

- 24K gold-plated F-pin connectors
- Entertainment S-video cable
- Flexible PVC jacket for easy installation

### Specifications

Model:	FAV-SV06AP
Cable type:	separate video
Shielded:	yes
Outside diameter:	6 mm
Nominal impedance:	75 ohms
Connector type:	4- pin DIN male to male plug
Jacket:	flexible PVC
Color:	black
Length:	6 feet
Warranty:	Lifetime

Corrosion resistant  
24K gold-plated  
connectors

Superior rejection  
against interference  
and noise
