

## **30AWG gold plated HDMI flat cable for audio and video**

Designed to provide the highest quality of signal transfer from high performance video and entertainment devices to high definition displays. This high-speed HDMI cable supports high definition formats, uncompressed transmission of video streams, and multichannel digital audio.

### **This cable is the ideal solution for:**

- High definition TV
- Plasma/ LCD television sets and projectors
- DVD players and DVRs
- Blu-Ray players
- HD camcorders
- Digital/Cable satellite receivers
- Gaming systems

- Superior rejection against interference and noise
- Outstanding signal purity with full high-definition resolution
- Corrosion resistant 24k gold-plated connectors

### Specifications

Model:	<b>FAV-HD06FS</b>
Connector type:	Molded Input: HDMI male (gold-plated) Output: HDMI male (gold-plated)
Data transfer rate:	10.2Gbps
Data transfer frequency:	340MHz
Resolution:	3840x2160 @ 60Hz Supports 3D, deep color, and ethernet
Wire gauge:	30AWG
Nominal impedance:	75 ohms
Cable construction:	Bare copper conductor
Shielding:	Aluminum maylar foil
Additional features:	Flat cable
Length:	6ft
Color:	Black
Outside diameter:	0.51x0.14in
Jacket:	Flexible PVC
Product weight:	0.29lbs
Warranty:	Lifetime
