

The Forza Surge Protector provides reliable protection to guard all your appliances, electronic equipment, and entertainment components from electrical surges and spikes. Featuring seven standard outlets, and four rotating outlets especially designed to accommodate bulky plugs or adapters, this surge protector is versatile and convenient. The built-in child safety outlet covers safely seal off unused outlets, while the on/off switch is shielded by a clear protective lid to prevent accidental trigger or disconnection of the unit. In addition, you can plug in coaxial cables and RJ-11/45 connectors into the surge protector as well, safeguarding your cable television and internet connections along with your electrical outlets.

**FEATURES**

- Grounds AC power through 11 surge-protected outlets
- Four 180° rotating outlets accommodate a variety of plugs and adapters
- Cable management system guides the cables of the devices plugged into it, avoiding tangles
- RJ-11/45 jack to protect your network, phone and data line against power surges and brownouts associated with lightning or utility problems
- New MOV (metal oxide varistor) technology – provides enhanced protection for electronic components against voltage spikes
- Coaxial line jack protect your cable and satellite equipment from surges
- Can be mounted on the wall

- Main switch with cover  
User resettable breaker
- 180°
- Four (4) rotating outlets to easily accommodate a variety of plugs and adapters
- LED Indicator  
Ground Indicator  
Protection Indicator
- Seven (7) AC output outlets provides stable power to your devices and peripherals
- Fire retardant plastic construction
- Built-in child protection: sliding safety outlet covers add extra protection for kids and pets
- RJ-45/11 jack to protect your network, phone and data line against power surges and brownouts associated with lightning or utility problems
- Coaxial line jack  
Gold finished contacts for increased conductivity and protection against corrosion

MODEL	FEATURES	FSP-1011
GENERAL	Power protection type	11 outlet surge protector
	Electrical rating	1750W
	Surge protection I <sub>max</sub>	17500A
	Maximum spike current (total)	37500A
	Color	Black
INPUT	Input range	110/240V AC
	Frequency range	50/ 60Hz (autosensing)
	Input connector	Nema 5 – 15 P
	Cord length	5ft / 1.5 m
OUTPUT	Receptacle contact type	Nema 5-15 R x 11
	Frequency range	50/60 Hz (autosensing)
	Overload protection breaker	Yes
LED INDICATORS	Protection indicator	Blue
	Ground indicator	Blue
