

This wall tap is designed to plug in multiple devices in one location, providing surge protection for two outlets and two USB ports. Its 2.1-amp USB charging ports are perfect for keeping tablets, smart phones and other rechargeable electronics ready to use. This low-profile power multiplier is easy to install and fits into tight spaces. Perfect for home and office applications.

**Highlights**

- Wall-mount AC power protection for two components and two USB devices.
- Two-powered USB ports conveniently located on the front
- Integrated mobile phone holder keeps devices safe while charging
- Surge protection rating of 300 joules
- Surge protection indicator light
- Overload protection
