

Sealed-lead acid battery 12V 4.0Ah
More power, longer life

Forza's **FUB battery** line utilizes the latest innovations in lead acid technology in order to achieve highly versatile and popular batteries with multi-purpose applications. Their unique sealed construction provides a maintenance-free operation, with the advantage of being mounted in any orientation without capacity loss, or fear of electrolyte leakage.

Advancements in production guarantee that the **FUB battery** line complies with environmentally friendly requirements. Constructed using thick plates and high density active material, they provide an extra margin of performance and long service life-cycle. These safe and reliable batteries are designed to allow for fast and easy installation for a wide array of uses such as UPS power supplies, emergency lighting, power tools, security systems, and much more!

Highlights

- Sealed and maintenance free operation
- Long service life cycle and shelf life
- Eco-construction and use
- Compact design
- Rugged, non-spillable construction design
- Low self-discharge characteristics
- Multiple installation positions
- Wide operating temperature range
- Deep discharge recovery performance
- One year full warranty

Applications

- Alarm systems
- Computer backup
- UPS-Uninterruptible power supplies
- Emergency lighting
- Fire and security systems
- Power tools
- Portable video devices
- Outdoor and camping equipment
- Golf cars
- Marine equipment
- Medical-mobility equipment
- Robotics
- Toys, and many more uses

MPN	FUB-1240
Output	
Battery output voltage	12V
Battery ampere-hours	4.0Ah
Battery type	Sealed-lead-acid battery
Physical features	
Color	Black
Weight	2.6lb
Dimensions	3.5x2.8x4.0in
